- Three scalable live formats support club, festival, theatre and arena opportunities.

Cosmic Rave

The dancefloor as ritual. The spiral as portal. The voice as faith.

Artist biography for management review

Short biography

Frontman, songwriter and one of the most distinctive voices in UK dance music. From the Chemical Brothers, Justice, CamelPhat and Roisin Murphy to Infinity Ink and Hot Natured - where 'Forward Motion' and the benchmark 'Benediction' with Jamie Jones and Lee Foss helped define the psychedelic-house era - Ali Love has carved a place as a hit maker who refuses to stay in his box. His 'Confusion' with Keinemusik was an Essential New Tune for Pete Tong on BBC Radio 1, and was later covered by Drake, who cites it as an inspiration. Psychedelic house, cosmic disco and soulful downtempo, entwined with Ali's golden vocals. Love always wins.

Full biography

Frontman, songwriter, musician and straight-up entertainer, the inimitable Ali Love has many sides and a discography as long as your arm. From collaborations with the Chemical Brothers, Justice, CamelPhat and Roisin Murphy, via a non-stop thrill ride as part of Infinity Ink and Hot Natured, through solo music and special projects, Ali has carved a special place as a hit maker and remains 'rarely less than entertaining' (Resident Advisor).

One of the most distinctive voices in UK dance music, his 'Benediction' with Hot Natured has long been a benchmark, while his refusal to stay in his box is the perfect antidote to modern-day anonymous track culture.

Ali's 'Confusion' collaboration with Keinemusik was an Essential New Tune for Pete Tong on BBC Radio 1 and was later covered by Drake, who cites the song as an inspiration. Psychedelic house, cosmic disco and soulful downtempo are all entwined with Ali's golden vocals.

Across solo records, groups and collaborations, Ali keeps returning to the same thread: the voice, the dancefloor and the belief that love always wins.
